

Level 1: Exhibit Halls

The exhibit hall level encompasses nearly 200,000 square feet of contiguous exhibit space that can be divided into three separate halls. Each hall has its own entrances, ticket offices, and coat check in addition to drive-onto-floor access and connections for electric, telecommunications, air, water, gas, and drainage. Loading docks are also located on Level 1 (11 high bays and 6 low bays).

Level 2: Meeting Rooms

We feature 31 deluxe meeting rooms with the flexibility to accommodate a wide variety of group sizes. Each room has full telecommunications connectivity with individually controlled sound and lighting that welcomes creative event plans. Level 2 also includes connections to Cincinnati's Skywalk system that links the our Convention Center to surrounding hotels and parking garages.

Level 3: Ballrooms

The ballroom level features the largest and grandest ballroom facility in the region (nearly 40,000 sq. ft.). This spectacular room offers flexible options for a variety of events. This level also includes Junior Ballroom and ample pre-function space to compliment each event.
